**More
 wild
 than
 tamed.**

<https://www.friendsofthescrubs.uk/>

This artwork has been produced with Old Oak Common Primary School and Friends of Wormwood Scrubs as part of their "more wild than tamed" project. The project aims to recognise the variety of wildlife, fauna and flora that inhabits the Scrubs and celebrate this within the community.

School children from Old Oak Primary were asked to draw the different species that can be found across the scrubs as the area is home to an abundance of species including butterflies, birds and lizards. Their artwork is showcased across the hoarding.
